28. [REDACTED] BRIEFING Accompanied [REDACTED] NFAC/OSR, who briefed Peter Murphy, Gordon Casey and Charles Murphy, of the House Appropriations Committee staff, on the history, development and current status of the Soviet tank inventory. This briefing was informative and he answered all the questions of the staff members. I provided Peter Murphy with a chart showing comparative characteristics and performance capabilities of the Soviet YAK-36 Forger A aircraft with the AV-8A Harrier and explained to him that the expert in this area was out of town but we could provide a briefing at a later date when he wished.
